REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the present invention relates to a molecular memory device. The independent claims 1 and 94 recite molecular memory device having a linker selected from the group consisting of the linker component of molecules "A" through "I" of figure 34. The independent claims 95-97 and 116 recite L1 and L2 are independently selected linkers and X1 and X2 are independently selected from the group consisting of a substrate, a reactive site that can covalently couple to a substrate, and a reactive site that can ionically couple to a substrate. The prior art fails to disclose or suggest such features as recited in the independent claims 1, 94-97 and 116, therefore, claims 1-50, 94-151, 232-241 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
